Technical Skills

Data & BI

Power BI · DAX · SQL · Excel · Looker

Python & ML

Python · Scikit-learn · XGBoost · TensorFlow · SHAP · Prophet · PySpark

AI & Agents

Claude · Copilot Studio · MCP · Claude Code

Cloud & Infra

GCP · Docker · Github

Clifton Strengths

Empathy

Strategic

Achiever

Positivity

Individualization

Activator

Languages

English Fluent

Bangla Native

French Beginner

Interests

Exploring emerging AI tools

Horses & equestrian

AI / tech tinkering

Cooking

Reading

Mohammed Khaled

Aspiring Agentic AI Engineer · Data Scientist · BI Developer · Data Analyst

● Education

BSc Data Science, Protection & Security

Sept 2023 – Sept 2026

Thomas More University Mechelen — Campus De Vest

Final-year student. Coursework spans machine learning, forecasting, data engineering, cybersecurity, and applied statistics. Graduating September 2026.

● Work Experience

Data Engineer Intern

Feb 2025 – Apr 2025

Agiliz — Belgium

- Built interactive Looker dashboards consolidating multi-source business data into a single decision surface for internal stakeholders.
- Developed an automated leads-generation pipeline in Python, reducing manual prospecting effort and improving lead quality for the sales team.
- Collaborated with analysts on data modelling, ETL, and ML prototyping using Power BI and Python.

● Projects

Belgium Medicine Shortage Early-Warning System

In progress

Forecasts stock-out risk per molecule using public FAGG feeds, wholesaler data, and seasonality signals.

Python · Prophet · XGBoost · SHAP

MatterMind — Copilot Agent for Materials Discovery

Apr 2026

Microsoft Copilot Studio agent that lets researchers query sustainable material alternatives in natural language.

Python · Copilot Studio · Power Apps · ML · SHAP

ESM Middle Office Investment & Risk Dashboard

Apr 2026

End-to-end investment and risk dashboard for the European Stability Mechanism.

Python · SQL · SQLite · Power BI · DAX

MCP Data Cleaner

2026

First MCP server build — exposes a pandas data-cleaning pipeline as a tool any MCP-compatible LLM (Claude, GPT, local models) can call to clean tabular data on demand.

Python · MCP · pandas · Claude

● Certifications

Introduction to Model Context Protocol — Anthropic, 2026

Claude Code in Action — Anthropic, 2026

Python for Data Science, AI & Development — Coursera, 2025

Analyze and Visualize Looker Data Skill Badge — Google, 2025

Foundations: Data, Data, Everywhere — Google, 2022

AI Agents Course — Hugging Face (in progress, 2026)

Microsoft Applied Skills: Create Agents in Copilot Studio — Microsoft (in progress, 2026)

McKinsey Forward Programme — McKinsey & Co. (in progress, 2026)
